

ABOUT US

This work is personal. We started with the goal of protecting our own home, and now we're proud to help protect yours. Whether it's a house, business, or entire community, we take the time to understand your needs and deliver custom solutions with the same care and commitment we'd want for our own family.

PROTECTING YOUR
PROPERTY
ONE FLOOD PANEL AT
THE TIME

Our mission is to provide affordable, effective flood solutions that help protect property with confidence. Built for safety and resilience, our systems offer peace of mind when it matters most.

PROTECTION FOR

- Residential Properties
- Commercial Buildings
- Retail Spaces

Each flood panel is precisely measured and custom fabricated to ensure a perfect fit for the specific dimensions and requirements of the opening. This tailored approach maximizes flood protection and ensures a reliable barrier against rising water.

CUSTOM MEASURED

Every property is unique. We measure every opening and custom fabricate to ensure a seamless fit.

AFFORDABLE PROTECTION

Flood protection shouldn't break the bank. DriTech offers high-quality flood panels at competitive prices.

SOLID DESIGN

Each panel is one single piece with no moving, stacking, or inflatable parts for maximum durability and simplicity

EASY TO INSTALL

Installed by our team upon initial setup, our panels require no professional assistance for subsequent installations.

MADE LOCALLY WITH CARE

We design and construct our flood panels locally with US sourced materials.

DURABLE MATERIALS

- Triple-wall polycarbonate hurricane panels
- Rust-free aluminum frame for long-lasting performance
- 100% waterproof Neoprene seal
- Rust-free fasteners

LIGHT WEIGHT

- Each panel weighs just 2 pounds per square foot, making them lightweight and user-friendly.
